

HHIA – COMMUNITY RELATIONS –FINAL REPORT FOR YEAR OF 2018

We have three major organizations that kept our year full of interesting, educational and entertaining events, and they are; Kiwanis Club of Hacienda Heights, HSI LAI Temple, and Homestead Museum. In addition, the Puente Hills Habitat Preservation Authority offers opportunity for volunteering so you can learn more about what is going on with our trails and how you can help keep them beautiful and ready for those hikes.

The Kiwanis Club is committed to helping our community put our best foot forward. Their fund raisers are used to help our schools , the children and provide scholarships. Every year they have a Rib-fest, that offers wonderful food and the proceeds go to a few selected senior girl students living in the Los Altos High School District. One of these girls is crowned “Miss Fourth of July”.

HSI LAI Temple is committed to helping our community and very involved in our special “Jim Davis Beautification Day”, which involves getting our streets ready for our Fourth of July Day Parade. They also have been involved in cleaning up our beaches, along the coast. They have so many different events that are educational, entertaining, and enlightening. So go to their website and check out what you would like to check out. www.hsilai.org.

The Homestead Museum is a well hidden secret to the past, present and future. History abounds at this very unique place. It is a place that offers something for every member of your family and gives you a place to learn; try something new, and have fun. All ages are welcome. Many of the classes are free and they also have reduced rates for students and seniors. It is located on Don Julian Rd., in the City of Industry. Explore, bring the family, have fun and learn more about everything.

Look for more information in our Monthly reports in 2019.
