

Public Works

LOS ANGELES COUNTY

HALLIBURTON ROAD AT STIMSON AVENUE PROPOSED LEFT TURN PHASING FACT SHEET

- **Background**

At the request of a constituent, Public Works conducted a left turn study at the intersection of Halliburton Road at Stimson Avenue. Based on the study, fully-protected left turn phasing was recommended.

- **Project Scope**

The objective of this project is to upgrade the existing traffic signal on Halliburton Road at Stimson Avenue with a fully-protected left-turn phasing for eastbound and westbound traffic.

- **Project Benefits:**

When properly used, traffic signals are valuable devices for the control of vehicular and pedestrian traffic. They provide for the orderly movement of traffic and may reduce the frequency and severity of certain type of collisions.

- **Project Location**

The project is at the intersection of Halliburton Road at Stimson Avenue in the unincorporated community of Hacienda Heights in Supervisorial District 4.

- **Community Outreach:**

A project information flyer and a pre-construction brochure will be provided shortly after the project has been awarded and a week prior to start of construction, respectively.

- **Cost Estimate**

Total Project: \$ 250,000

Construction: \$ 195,000

- **Economic Impact:** Project construction supports 2.4 direct and indirect jobs.

- **Milestone Schedule**

The following schedule assumes advertising several projects as hard-bid contracts, grouped by area and project readiness.

October 2018	Final Plans & Specifications to CON
February 2019	Advertise for Construction Bids
April 2019	Award Construction Contract
August 2019	Estimated Start of Construction
January 2020	Construction completion
