There is so much printed material at this park that can keep you informed and educated on various subjects and what is available in your community. There are public health notices, like Zika Virus Disease info as well as Animal Shelter Directory for many different communities. They also posted a notice on a Mountain Lion and a Bobcat. Apparently there has been a large adult Mountain Lion seen in the park and they want people to be aware of what to do if they encounter one. Visit the park's office.
